

**3 Boy Glassworks** creates custom, handcrafted stained glass pieces. In 2005, **KZH Design** created an updated logo for this company. The logo was incorporated in the business stationery and on the company website. Below are samples of these items.

The new logo was created by using a photo of an original stained glass panel door. The photo was imported into a graphics editing program and then traced to recreate the design in a digital format. This new graphic was then incorporated into the new stationery and website logo.

New company letterhead.
